dhruvshah0905

SUMMARY

Experienced .NET Developer with 4+ years of expertise in building scalable web applications using ASP.NET Core, MVC, C#, and Entity Framework. Proficient in SQL Server, LINQ, and RESTful APIs, with hands-on experience in frontend technologies like HTML, CSS, JavaScript, and jQuery. Skilled in authentication (OAuth2, JWT) and cloud services (Azure/AWS). Passionate about delivering high-quality, optimized solutions using clean architecture, modern development practices, and AI-assisted tools like Claude AI and ChatGPT to improve productivity and code quality.

TECHNICAL SKILLS

C# .NET (Core & Framework)	HTML, CSS, JavaScript	SQL (SSMS)
ASP.NET Core MVC	jQuery	MongoDB
Entity Framework (EF Core)	AJAX	CI/CD Pipelines
LINQ	Angular	Git / GitHub
Azure Cloud	Web APIs / RESTful APIs	AWS

AI Tools: Claude AI, ChatGPT, Prompt Engineering

PROFESSIONAL EXPERIENCE

Welspun GCC (Ahmedabad)

April 2025 - Present

Senior Officer in Applications

- Created, tested, and debugged applications while ensuring adherence to clean coding practices and industry standards.
- Led the end-to-end development of a Visitor Management System (VMS), including database design in SQL Server and full-stack implementation.
- Built and deployed a CI/CD pipeline for VMS, reducing deployment time and minimizing manual errors.
- Successfully rolled out VMS across multiple systems, enabling organization-wide adoption and improving visitor tracking efficiency.
- Utilized AI tools like Claude AI and ChatGPT for debugging, code optimization, and accelerating development workflows, reducing development time.

Vagaro Technologies Pvt Ltd (Ahmedabad)

Sept 2023 - Feb 2025

Software Engineer (.Net)

- Designed, developed, and maintained scalable software solutions using ASP.NET Core, MVC, and Web APIs in collaboration with cross-functional teams.
- Implemented and maintained authentication & authorization mechanisms using JWT, OAuth, and IdentityServer.
- Optimized application performance by identifying and resolving bottlenecks in SQL Server queries, MongoDB operations, and API response times.
- Integrated and maintained payment gateways (Adyen, PayPal, Stripe), ensuring seamless transactions across multiple platforms.

CJK KnowledgeWorks Global Limited (Mumbai)

Nov 2022 - Sept 2023

Junior Software Developer

- Designed and developed new websites and web-based solutions using ASP.NET Core, MVC, and Angular.
- Collaborated with clients to gather requirements, provide technical expertise, and ensure their needs were fully met.

- Analyzed business requirements and past implementations to enhance functionality and improve system performance.
- Identified, troubleshoot, and resolved defects, ensuring application stability and optimal performance.

Datamatics Global Service Limited (Mumbai)

July 2021 - Oct 2022

.NET Developer

- Developed and maintained .NET applications and web forms using VB.NET, ASP.NET, and supporting technologies.
- Designed and implemented database objects to manage and store data efficiently in SQL Server and MongoDB.
- Configured and managed IIS Server for hosting and deploying web applications.

PROJECT EXPERIENCE

• Visitor Management System

Apr 2025 - Present

- Technologies: .NET MVC, WebAPI's, SQL, HTML, CSS, Git, Azure Cloud
 - Designed a scalable and modular architecture to support multi-location deployment and future enhancements.
 - Optimized SQL Server performance and API response times to ensure a fast, seamless user experience.
 - Implemented features like visitor check-in/check-out, badge generation, approval workflows, and real-time tracking.
 - Successfully rolled out VMS across multiple systems, enhancing security, compliance, and operational efficiency.

• Pay-Pro Mini (Phase 1 & 2)

Dec 2024 - Feb 2025

- Technologies: .NET Core, C#, SQL, MongoDB, SignalR, HTML, CSS, Angular, Git, Azure Cloud
 - Designed and developed PayPro Mini, a tablet-like device offering core system functionalities.
 - Integrated Auto-Connection using SignalR for real-time synchronization and seamless operation.
 - Optimized performance for a smooth user experience on a dedicated hardware device

• Adyen (Payment Gateway Integration)

Dec 2023 - Sept 2024

- Technologies: .NET Core, C#, SQL, MongoDB, Payment Gateway APIs & SDK, Azure Cloud
 - Integrated Adyen payment gateway to support card and digital payments.
 - Enabled seamless payment processing on both user devices and system devices (e.g., PayDesk).
 - Enhanced transaction efficiency by optimizing API calls and error handling.

EDUCATION

B.Sc in Information Technology

June 2018 - May 2021

Bhartiya Vidya Bhavans College (University of Mumbai)

- CGPA - 8.58 / 10.0

H.S.C (Science)

June 2017 - Apr 2018

Maharashtra State Board (Mumbai)

- Obtained 62.31%

S.S.C

July 2015 - Apr 2016

Maharashtra State Board (Mumbai)

- Obtained 76.80%
